KEEPING YOU INFORMED

This report is a summary of some indicators of the performance of our school. No single report can tell the whole story of our school's educational program or the people who work and learn here. We encourage you to find out firsthand by visiting our school. If you are a parent of one of our students, we invite you to take an active role in your child's learning because studies show that when parents are involved, students do better in school.

HOW WE ARE IMPROVING

Teed Elementary continues to make it an objective to meet the needs of all students.

We are currently implementing a school-wide reading initiative that will improve teacher's ability to teach to a diverse group of learners and allow for differentiated learning opportunities for students.

WHAT WE CELEBRATE

Our school is successfully meeting the needs of our students each and every day. We have committed teachers and staff who look forward to providing data-driven instruction with exciting and innovative materials and resources for our students.

OUR STUDENTS' ACADEMIC ACHIEVEMENT

ABOUT OUR STUDENTS' TEST RESULTS

Included with this are "Adequate Yearly Progress Assessment Reports." These reports provide detailed information about the academic performance of our students and specific groups of students on state reading, math, and language usage tests.

ABOUT OUR SCHOOL'S PROGRESS

The results from these tests also are used to measure the progress of our school toward state and federal goals. The report called "Adequate Yearly Progress Indicators" details which goals our school met and those we may have missed.

Adequate Yearly Progress School Indicators 2007-2008
Fremont H. Teed Elementary School, Grades 4-6, Kuna Jt. School District No. 3

The goal in our school, district, state, and nation is for all students in grades 3 through 8 and 10 to be proficient in reading and math by the spring of 2014. Idaho uses the Idaho Standards Achievement Test (ISAT) and the Idaho Alternate Assessment (IAA) to measure proficiency. This report shows the percentage of our schools' students meeting state goals for proficiency in reading and math and our progress on a third indicator, which is: improving the percentage of students who proficient in language usage; increasing the percentage of students who perform at the advance level; or decreasing the percentage of students who are not proficient.
